

Muhammad Aqeel Arshad

Full-Stack Developer | MERN | AI, LLM & MCP Integration

Lahore, Pakistan | Available for US / EST Hours | +92 333 8283410

muhammadaqeelarshed@gmail.com | linkedin.com/in/aqeel-arshed | aqeelarshad.vercel.app

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience designing, building, and shipping production web applications across the MERN stack and TypeScript ecosystem. Skilled in architecting scalable Node.js, NestJS, and Express backends, modeling data with Prisma and PostgreSQL, and developing responsive React and Next.js interfaces. Proven ability to deliver REST APIs, microservices, and third-party integrations (Twilio, Stripe, OAuth) and to orchestrate AI/chat services end to end. Collaborative Agile/Scrum contributor experienced in remote delivery across US (EST) hours.

CORE TECHNICAL SKILLS

Languages: TypeScript, JavaScript (ES6+), Python, SQL, HTML5, CSS3

Frontend: React.js, Next.js, Redux, React Hooks, React Context, Tailwind CSS, Material UI (MUI), Styled Components, Bootstrap, jQuery

Backend: Node.js, NestJS, Express, REST APIs, GraphQL, Microservices, WebSocket, Socket.io

Databases & ORM: PostgreSQL, MongoDB, MySQL, Prisma, TypeORM, Mongoose, Redis, Elasticsearch

Cloud & DevOps: AWS (Serverless), Google Cloud Platform (GCP), Microsoft Azure, Docker, CI/CD, Webpack, npm

Integrations & APIs: Twilio (SMS/Voice), Stripe, OAuth, MCP / external service orchestration, workflow automation

Testing & Practices: Jest, Cypress, Agile/Scrum, Git, Code Review, Unit & Integration Testing

CMS & E-commerce: Magento (module development, theme customization), WordPress (theme & plugin development)

PROFESSIONAL EXPERIENCE

PowerHouse — MERN Stack Developer

Jul 2025 – May 2026

Remote

- Architected and shipped scalable backend services using Node.js, NestJS, and TypeScript for legal- and sales-focused platforms, delivering production-ready features on schedule.
- Designed and delivered REST APIs, microservice integrations, and MCP-based service layers that enabled end-to-end business workflows across teams.
- Modeled and optimized data with Prisma and PostgreSQL, improving query performance by 30% and strengthening data consistency and reliability across services.
- Integrated Twilio (SMS/Voice) to automate notification and communication workflows, reducing manual outreach and improving response times.
- Engineered AI/chat backend capabilities — session management, MCP tool orchestration, and external service integration — to power intelligent, automated user interactions.
- Collaborated with frontend, product, and QA teams in Agile sprints to deliver high-quality, maintainable features.

AMOXT Solutions Inc. — Full-Stack Engineer

Oct 2023 – Jun 2025

- Built and shipped full-stack web application features using React.js and NestJS in an Agile, cross-functional environment.
- Diagnosed and resolved bugs and performance bottlenecks, improving application stability, responsiveness, and load times.
- Implemented new requirements from design specifications and documented code changes to improve maintainability and team onboarding.
- Partnered with QA Engineers and Product Managers to validate releases and ensure requirements were fully met before deployment.
- Coordinated with cross-functional teammates to translate design requirements into reliable production features.

EDUCATION

Bachelor of Science in Computer Science

Jan 2021 – Dec 2024

Gujarat University
